

Nagoya YWCA Academy International Course

名古屋YWCA高等学院 国際コース
通信制高等学校（YMCA学院高等学校）サポート校

Opening in April 2024!

‘Are there any high schools that I can apply to
even though I have just started learning Japanese?’

‘Will I be able to keep up with high school classes?’

‘Will I be able to go to university or find a job after graduation?’

Nagoya YWCA High School (NYAIC)

was established to respond to these concerns.

**The school aims to enable foreign students to graduate
from high school in three years while learning Japanese.**

About NYAIC

Nagoya YWCA High School (NYAIC) is a support school for YMCA Gakuin High School (correspondence course).

Students enroll in NYAIC at the same time as YMCA Gakuin High School.

Monday to Friday, from 9am to 3pm, students learn Japanese while studying the subjects required for graduation from YMCA Gakuin High School.

Goal for NYAIC

Our aim is to build a foundation for our students' future in Japan.

High school diploma

We provide detailed support to help students obtain the 74 credits required to obtain a high school diploma in three years.

Japanese study

All Students can study Japanese for 1,300 hours over three years.

By graduation, students aim to pass the JLPT N2.

JLPT N2 is the same level as the CEFR B2 required for university entry.

English study

Provides effective English language learning to prepare students for international jobs in the future. The aim is to pass Eiken Level 2 by the time of graduation.

Target level will vary depending on the individual's English learning experience.

NYAIC's Unique Teaching

Learning to value pupils' mother tongues and cultures

To preserve pupils' mother tongues, we make time for them to speak and read books in their mother tongues.

Activities to connect with the local community in Japan

We organise activities to interact with students from other schools and to volunteer at the YWCA.

Education for careers

Classes are given to help students find out what they want to study at university or vocational school, or what job they want to do in the future. Students visit universities and undertake internships.
